

Applications are invited for the following full-time position in the Saw Swee Hock School of Public Health:

Research Assistant x 2 (1 year minimum, up to 3 years)

Two research assistant position are now available in the Saw Swee Hock School of Public Health to support the Principal Investigators, Assistant Professor Feng Mengling, in research projects in the areas of healthcare data analytics and biostatistics.

The selected candidates will be working in a cross-disciplinary team consists of data scientists, physicians, post-docs, PhD students and well respected faculty members from NUS and NUH. They will also work with Dr Feng's international collaborators from the Harvard-MIT Health Science Technology division. It will be a great opportunity for candidates to advance their skills in data analytics and gain firsthand experience in the application of analytics to healthcare problems.

Major responsibility of the post includes managing, extracting, and analysing data from various projects. In addition, candidate is required to conduct literature reviews, write reports and develop presentations on existing scientific works relevant to our project. Candidate must be an independent and self-driven worker who is well- organized and has an eye for details. Candidate must possess excellent written and verbal communication skills. He/She must possess the ability to work effectively with colleagues to achieve team goals. Good proficiency in the following areas is essential:

1. Microsoft Office Applications, particularly MS Word, Excel (preferably with proficiency in Visual Basic)
2. Statistical software (R)

Good proficiency and experience in the following areas is preferred:

1. Database creation and configuration
2. Experience with the PL-SQL/Trans-SQL
3. Knowledge and experience in machine learning

The successful applicant is expected to possess at least a Bachelor's Degree in Computer Science, Mathematics, Statistics, and preferably with relevant experience. Interest to pursue a master/PhD degrees in the area will be a plus.

Recruitment is open immediately, and will continue until the position is filled. Applicants should send a brief statement of interest, CV, three named references, [NUS Personal Data Consent for Job Applicants](#) and other supporting documents to with **email subject (RA for DRM):**
