OCCUPATIONAL HEALTH PRACTICE

WHAT IS THE COURSE ABOUT?

This course focuses on knowledge and competencies of occupational health (OH) professionals to manage Occupational Health Services (OHS) and participate in company management activities e.g. the implementation of integrated management systems, health promotion programmes, and emergency preparedness.

It addresses practical challenges of OH professionals who work in a business environment by stressing their contributions to the overall business processes and goals, its operations and the health of its employees. It aims to enable OH professionals to play an active part in the management of a company and its workforce.

This course will be taught online with supplementing tutorials over thirteen weeks. We will have a tutorial session every other week for a total of seven tutorials on Tuesday evenings. Please refer to the registration form for the tutorial dates.

WHO SHOULD ATTEND?

Occupational health professionals such as doctors and nurses.
