

Vision for Regional HTA

Peer-to-peer learning and sharing

General awareness raising and capacity building

Technical training in rapid reviews, economics and costing, BoD

Gaps assessment (data, people, institutions)

Cost and burden of disease

Cost effectiveness analyses and ROI models

Advanced modelling platforms or initiatives eg. micro-simulation

Cross-country benchmarking

Vision for Regional HTA

General awareness raising and capacity building

Technical training in rapid reviews, economics and costing, BoD

Gaps assessment (data, people, institutions)

Cost and burden of disease

Cost effectiveness analyses and ROI models

Vision for ARCH

Training Workshop I

General awareness raising and capacity building

Technical training in rapid reviews, economics and costing, BoD

Gaps assessment (data, people, institutions)

Cost and burden of disease

Standard cost effectiveness analyses and ROI models

Advanced modelling platforms or initiatives eg. micro-simulation

Training Workshop II

November 2014 Conference

Research Outputs

Joint ARCH Outputs

- Conference proceedings: situational assessment article on HTA and tobacco control
- Joint article on gap assessment in evidence base on HTA related to tobacco control in the region (based on gap assessment exercise)
- Joint article on stakeholder perceptions of need, supply and demand for HTA in tobacco control and potential engagement (based on surveys)

Country Outputs Eligible for ARCH Technical Assistance

To be determined and carried out by country teams with ARCH support

Some options include

- Research strategy briefs eg priority-setting for evidence gathering based on gap assessment
- Further country-level stakeholder surveys
- Systematic review (if feasible)
- COI study (if feasible)
- Guideline development for SR / BOD
- Proposal development for larger projects

Consider collaborations or working groups

Not mandatory for participation in ARCH
