

Research Fellow in Healthcare Financing

The Saw Swee Hock School of Public Health (SSHSPH) at the National University of Singapore (NUS) is recruiting a Research Fellow in Healthcare Financing. The candidate will be working on models in economic evaluation and/or microsimulation for Singapore. This is a full-time position based in Singapore.

Duties may include but are not limited to: (1) in-depth analysis of data to inform the model parameters; (2) implementation and validation of the simulation model; (3) researching on health economics issues.

The appointed candidate should: (1) hold a PhD Degree (2) be proficient in Stata or R and (3) have experience in statistics, mathematics, computer science, quantitative social science, public health, epidemiology or related field. Experience with C++ is preferred but not required.

The ideal candidate should demonstrate the ability to query large data sets and have excellent knowledge of quantitative methods in applied health and/or social sciences. Fluency in English, as well as demonstrably good writing and analytic skills are essential. The role will suit someone who enjoys problem solving.

The position is for one year but can potentially be extended.

Applicants should send the following by email to Dr. Cynthia Chen (ephchc@nus.edu.sg):

- 1) Cover note introducing themselves (no more than 250 words)
- 2) Brief statement of interest matching their skills and competencies to the post (no more than 500 words)
- 3) A two page Curriculum Vitae (only including relevant information), containing details of two named referees
- 4) A sample of published work and their roles in the projects, if applicable
- 5) A complete NUS Personal Data Consent for Job Applicants (form is available here: [NUS Personal Data Consent for Job Applicants](#))

Interviews will be either face to face for local candidates or by video for those who are based abroad. We are accepting applications until the position is filled.
