

## **Global Health Office**

### **Report No. 6/2024 (1 Jan 2024 – 30 Jun 2024)**

#### **Aims and Mission**

---

The Global Health Office (GHO) supports the School's mission to achieve regional and global impact. It facilitates and directs the School's global health expertise and resources to coordinate activities at the regional and international level. This includes partnerships with external organisations, training of international health leaders, sourcing and administering research grants from international funders, and providing research and development opportunities for our faculty, staff and students.

#### **Role**

---

The work of the GHO include:

- Sourcing for regional and international academic opportunities for faculty, staff and students
- Oversight of and support for the School's regional office (UHS-SSHSPH Integrated Research Programme in Cambodia and NUS SSHSPH – Lao PDR Programme in Lao PDR)
- Supporting the submission and implementation of international research grants and programmes by faculty and staff
- Organising events such as leadership training programmes and conferences
- Tracking the international and global health activities of the School

#### **Current Staff**

---

##### **GHO**

Manager: Elisa Coati

Senior Assistant Manager: Zunairah Binti Lukman

Assistant Manager: Felicia Yue

Senior Executive: Korn Laongkul

## International & Global Health Activities

This is the sixth report collating international and global health activities at the School, covering the period from 1 Jan 2024 to 30 Jun 2024. Reports will be issued biannually and include updates on grants and other projects, as well as events, courses and webinars, and international activities and partnerships. The projects and activities of the Regional Offices will be reported in a separate section below.

### Projects

Funder	Title	PI	Countries	Dates	Status
Illumina	(NEW) Insights into Precision Medicine (PM) Reimbursement in Asia	Prof Alec Morton	Asia	May 2024 – Jun 2026	Ongoing
Asia Pacific Observatory	(NEW) To provide technical input to understand current PHC related landscape and provide policy makers with options for future PHC focused research in the region	Asst. Prof Jasper Tromp	Japan, Korea, Cambodia, Vietnam, Lao PDR, Mongolia, Brunei, Malaysia and Singapore	May 2024 – Sep 2024	Ongoing
HITAP	Priority setting for health innovation and Early Health Technology Assessment for supporting research and development of medical innovation in Thailand	Asst. Prof Wang Yi	Thailand	Nov 2023 – Sep 2024	Ongoing
Pfizer	Navigating Reimbursement for Novel Therapies in Singapore and the Region	Asst. Prof Cynthia Chen	Singapore and the Region	Sep 2023 – Sep 2024	Ongoing
DFAT	Southeast Asia Health Security Roundtables – Improving Regional Health Security through Knowledge Exchange & Collaboration	Prof Hsu Li Yang	Singapore, Thailand, Indonesia	Jun 2023 – Jun 2024	Ongoing
SSHSPH/ DPRT/ YLLSOM/ Duke NUS/ Health Security Centre	NUS-Lancet Pandemic Readiness, Implementation, Monitoring and Evaluation (PRIME) Commission	Prof Helena Legido- Quigley; Prof Hsu Li Yang	Global	May 2023 – Dec 2025	Ongoing
At-Sunrice GlobalChef Academy	Microbiome Collection for Microbiota Vault	Prof Hsu Li Yang; A/Prof Jeremy Lim	Southeast Asia	Apr 2023 – Apr 2025	Ongoing

ODPRT, SSHSPH	Clinical evaluation of AI Solution for Mammogram-based Breast Cancer Diagnosis with a Japanese Cohort	Asst. Prof Feng Mengling	Japan	Apr 2023 – Mar 2025	Ongoing
HITAP	Strengthening Capacity for Evidence-Informed Health Decisions	Asst. Prof Hannah Clapham	Indonesia, Thailand	Mar 2023 – Sep 2024	Ongoing
Reach52	Validating research study conducted by reach52	Prof Hsu Li Yang	Indonesia, Philippines	Jan 2023 – Dec 2024	Ongoing
Gates Foundation	SEARCH (Southeast Asia Regional Collaborative for Health)	Asst. Prof Kiesha Prem	Southeast Asia	Jan 2022 – Dec 2026	Ongoing
CMB Foundation	Southeast Asia Health Equity Index (HEI)	A/Prof Jeremy Lim	SEA (collaborators in Cambodia, Indonesia, Vietnam)	Jan 2022 – Dec 2024	Ongoing
SDGHI-SSHSPH Joint Funding Initiative on Global Health Research in Asia	Assessing burden of surgical diseases and surgical care in Southeast Asia	Dr Liow Chee Hsiang	Singapore, Malaysia, Cambodia	Oct 2021 – Dec 2024	Ongoing
MOE Tier 1 (FRC)	Examining global health and human security in the COVID-19 new normal: case studies from Asia	A/Prof Natasha Howard	Syria/Syrian diaspora; Nepal	Mar 2021 – Feb 2025	Ongoing
Start-Up Grant	Mathematical modelling of infectious disease transmission and control in Asia	Asst. Prof Hannah Clapham	Asia	Mar 2020 – Feb 2025	Ongoing
CGD Europe	(NEW) Is There an Adaptive Advantage? A Simulation Study Concept for Adaptive HTA (aHTA)	Prof Alec Morton		Jan 2024 – Jun 2024	Completed
CGD Europe	(NEW) Advancing Gavi's Model of Country Transition: Opportunities for a New Compact	Prof Alec Morton		Jan 2024 – Jun 2024	Completed
HITAP	(NEW) Conducting economic evaluation using distributional cost-effectiveness analysis (DCEA) using the case study of Hepatitis C in Thailand Phase 1	Prof Teo Yik Ying	Thailand	Jan 2024 – Mar 2024	Completed
HITAP	Development of reference case for economic evaluation on precision	Asst. Prof Chen Wenjia	Thailand	Sep 2023 – Jun 2024	Completed

	medicine for health insurance reimbursement in Thailand				
Asia Pacific Observatory	Providing background support and analytical work for APO to support WHO SEARO regional forum in October 2023	Asst. Prof Jasper Tromp	Indonesia, Timor-Leste, Myanmar and Thailand	Sep 2023 – Nov 2023	Completed
Tan Tock Seng Hospital	Freshwater fish consumption in South East Asia	Asst. Prof Borame Dickens	Southeast Asia	Feb 2022 – Feb 2024	Completed
Start-Up Grant	Epidemiology, prevention, and management of infectious diseases in Cambodia	A/Prof Siyan Yi	Cambodia	Jan 2021 - Jan 2024	Completed

## Training and Conferences

Date	Event Type	Title	SSHSPH Lead	External Partner	Countries	Funding	Status
May 2024	Roundtable	(NEW) Southeast Asia Health Security Roundtable Series: Leadership and Communication in Major Epidemics	Prof Hsu Li Yang	Universitas Padjadjaran, Health Intervention and Technology Assessment Program	Singapore, Overseas Participants	MFA, Australia's Department of Foreign Affairs and Trade	Completed
Mar 2024 - 2025	Course	(NEW) Healthcare for Non-Healthcare Executives	A/Prof Jeremy Lim	AIA Group Limited	Asia	AIA	Ongoing
Feb 2024	Workshop	(NEW) Cambodia-Singapore Antimicrobial Stewardship Workshop	Prof Hsu Li Yang	Angkor Hospital for Children (AHC)	Cambodia	Pfizer	Completed
Feb 2024	Dialogue	(NEW) Public Health Thought Leadership Dialogue: Advancing Global Health for More Equitable Health Outcomes and Health Security for All	Prof Hsu Li Yang, Prof Vernon Lee Asst. Prof Kiesha Prem				Completed
Jan 2024	Course	(NEW) Multi-sectoral Urban Epidemiological Response Training for Outbreak Control	A/Prof Steven Ooi	National Centre for Infectious Diseases, Japan International Cooperation Agency	Singapore, Overseas Participants	MFA	Completed
Jan 2024	Talk	(NEW) Health Security Talks - Global Crisis' and Public Health Implications	Prof Hsu Li Yang	Australian National University	Australia		Completed
Jun 2022 – Jun 2025	Courses (online/in-person)	Modelling Infectious Diseases in Southeast Asia – See MIDSEA Network section below for further details	Prof Alex Cook		Singapore, Overseas Participants	Temasek Foundation	Ongoing

## Regional offices & Networks

**Cambodia:** The UHS-SSHSPH Integrated Research Programme (USIRP) is a collaborative venture between the University of Health Sciences (UHS) in Cambodia and the Saw Swee Hock School of Public Health (SSHSPH) at the National University of Singapore (NUS). Launched in October 2014 with a focus on tuberculosis and antimicrobial resistance, USIRP has evolved under USIRP II (October 2019 - December 2024) to encompass a broader array of public health priorities in Cambodia and Southeast Asia. This expansion includes research areas such as HIV/AIDS, infection prevention and control, maternal and child health, sexual and reproductive health, non-communicable diseases, and mental health.

The programme operates under an implementation research framework, aiming to develop and assess cost-effective interventions for healthcare access and improved outcomes, particularly in vulnerable populations. Collaborations extend to national programs, UN agencies, donor agencies, and NGOs, ensuring stakeholder involvement and translating findings into policy and action. The initiative has expanded its reach to Lao PDR, collaborating with the Lao Tropical and Public Health Institute. The dynamic team supporting USIRP comprises faculty, researchers, students, and staff with diverse expertise in behavioral sciences, implementation sciences, health promotion, health economics, and statistics, enhancing the programme's potential for significant public health impact.

### Ongoing projects in Cambodia (external funding only)

Project title	Funding Agency (start and end date)	PI
(NEW) Scoping and mapping of AMS enablers and bottlenecks in the health care system	ICARS (Mar 2024 to Feb 2025)	Prof Hsu Li Yang
Improving Social Security and Health	Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH (Nov 2023 to Sep 2024)	A/Prof Siyan Yi
Tuberculosis disease and infection in Cambodia: a cohort study	USAID (Sept 2022 – Aug 2024)	A/Prof Siyan Yi
Developing infection prevention and control (IPC) to reduce incidence of hospital-associated infection (HAI) in Cambodia and Lao PDR	Reckitt Global Hygiene Institute (Jan 2022– Jun 2025)	A/Prof Siyan Yi
i-MoMCARE – Innovative Mobile Technology for Maternal and Child Health Care in Cambodia: A Cluster Randomized Controlled Trial	BMGF (Nov 2021– Dec 2026)	A/Prof Siyan Yi

### **Lao PDR**

The NUS SSHSPH - Lao PDR Programme was launched on 7 February 2023 in partnership with the Lao Tropical and Public Health Institute (Lao TPHI) in Vientiane Capital, of the Lao People's Democratic Republic (Lao PDR). The programme focuses on research, education, and training, offering courses and grants for researchers in Lao PDR to collaborate with NUS researchers. Its primary objective is to foster partnerships, strengthen capacity, and support evidence-informed policies in public health aligned with the Ministry of Health's priorities.

In the first two years, the programme has successfully collaborated with local partners, including Lao TPHI and the University of Health Sciences of Lao PDR (UHS Laos). Together, they have achieved several key milestones such as collaborative teaching activities, ongoing research projects and awarding of travel fellowships to further strengthen collaborative efforts.

The programme plays a pivotal role in supporting research collaborations between Lao PDR researchers and NUS SSHSPH, through the NUS SSHSPH - Lao PDR Programme Research Grant (NUS SSHSPH – Lao PDR PRG). It provides funding and collaboration opportunities for exploratory and developmental research projects in their early stages conducted in Lao PDR. The first seed grant call received twelve applications, and three seed grants have been awarded.

#### Ongoing projects in Lao PDR (external funding only)

Project title	Funding Agency (start and end date)	PI/Collaborator(s)
(NEW) Implementing Good Pharmacy Practices to improve rational dispensing of antimicrobials in private pharmacies in Lao PDR	International Centre for Antimicrobial Resistance Solutions (ICARS) (2024 to 2026)	Dr Bounxou Keohavong (MOH Laos), and Asst. Prof Kiesha Prem
(NEW) To finalise the development of Lao PDR's Health Systems Review publication	Asia Pacific Observatory on Health Systems and Policies (2024 to 2025)	Asst. Prof Jasper Tromp, Dr. Viengsamay Sengchaleun
Improving appropriate antimicrobial use by 30% among women during pregnancy, childbirth and postpartum and among children under five years of age in Lao People's Democratic Republic	International Centre for Antimicrobial Resistance Solutions (ICARS) (2023 to 2025)	Dr. Bounxou Keohavong (MOH Laos), Asst. Prof Kiesha Prem
Exemplar for family planning in Lao PDR, Exemplars in Global Health‡	Sub-awarded from Aga Khan University funded by Bill and Melinda Gates Foundation (2023 to 2024)	Prof Mayfong Mayxay (UHS Laos)
Developing infection prevention and control intervention to reduce the incidence of hospital-acquired infection in Cambodia and Lao PDR	Reckitt Global Hygiene Institute (2021 – 2024)	A/Prof Siyan Yi, Dr. Kim Sothea (UHS PI), and Dr. Somphou Sayasone (LaoTPHI PI)

‡in collaboration with UHS (Laos) and The Aga Khan University

#### ADVANCE ID

The ADVANCE ID (ADVANCing Clinical Evidence in Infectious Diseases) **network** (funded for 36 months) will conduct research to develop the most effective ways to treat and prevent life-threatening drug-resistant infections. As a host for the network, the School will be working closely with local partners – namely the NUS Yong Loo Lin School of Medicine, Duke-NUS Medical School, Lee Kong Chian School of Medicine in Nanyang Technological University as well as National Centre for Infectious Diseases – to carry out clinical trials related to drug-resistant infections. The Singapore Clinical Research Institute (SCRI) is also actively supporting multiple work streams for the Network.

#### Projects

Funder	Title	PI	Countries	Dates	Status
Wellcome Trust	(NEW) Phase 2 Clinical Trial of New Antimicrobial for AMR	Prof David Paterson	Singapore and LMIC	Apr 2024- Oct 2027	Ongoing
NMRC	(NEW) AntiMicrobial resistance Research & Intervention	Prof Hsu Li Yang	Singapore and LMIC	Jun 2023 – Jun 2028	Ongoing

	Alliance Singapore (AMRITAS)				
Wellcome Trust	(NEW) Stimulating systemic regional uptake of principles of good RCTs in Low and Middle Income Countries	Dr Mo Yin	Singapore and LMIC	Apr 2023 – Apr 2025	Ongoing
Pfizer	Early impact therapy with ceftazidime-avibactam via rapid diagnostics versus standard of care antibiotics and diagnostics in patients with bloodstream infection, hospital-acquired pneumonia or ventilator-associated pneumonia due to <i>Pseudomonas aeruginosa</i> or carbapenem non-susceptible Enterobacterales	Prof David Paterson	Worldwide	Dec 2022- Dec 2025	Ongoing
Wellcome Trust	A Clinically Oriented Antimicrobial Resistance Surveillance Network for Healthcare- Associated Infections (ACORN-HAI)	Prof David Paterson	40+ sites across Asia	Jun 2022- Aug 2025	Ongoing

### MIDSEA Network

**The MIDSEA Network** is a consortium of people working in the area of modelling (M) infectious (I) diseases (D) in South (S) East (E) Asia (A). The network exists to bring together modellers, broadly defined, from our region to share ideas, learn from each other, and contribute to controlling outbreaks in Southeast Asia through our research. It was envisioned to promote modelling to decision makers by engaging them in our symposiums and seminar series. This will allow both modellers and decision makers to understand each other better. This is made possible by the funding from Temasek Foundation.

### Events

Date	Title	SSHSPH Speaker(s)	External Partner	Countries
19 – 29 Jun 2024	(NEW) MIDSEA Summer School, Workshop and Symposium	Prof Alex Cook, Asst. Prof Borame Dickens, Asst. Prof Hannah Clapham, Asst. Prof Kiesha Prem, Asst. Prof Swapnil Mishra, Asst. Prof Akira Endo, Dr Bimandra Djaafara	De La Salle University, Maharakham University, Mahidol Oxford Research Unit, Oxford University Clinical Research Unit, University of the Philippines	In-person participants from Singapore and overseas
20 Mar 2024	(NEW) Understanding Long-Term Sequelae of Infectious Diseases		Nanyang Technological University	Online overseas participants

21 Feb 2024	(NEW) Exploring Eco-Epidemiological Modelling of Hantavirus Spread and Epimediological Modelling of Covid-19 Transmission		Universiti Sains Malaysia	Online overseas participants
8 Jan 2024	(NEW) Modelling the Population-Level Impact		Université Laval	Online overseas participants

### Climate, Environment and Health Programme

Climate, Environment and Health Programme is a research programme leveraging cross-disciplinary expertise to understand and evaluate the health risks associated with climate and other environmental changes. Data-driven methods and technologies are used to monitor the impacts of environmental change on health and identify solutions to protect human and ecosystem health.

### Events

Date	Title	SSHSPH Speaker(s)	External Partner	Countries
9 Apr 2024	(NEW) 1PM in Focus_ Climate Change and Human Health Part 1	Asst. Prof Yann Felix Boucher	Power 98	Singapore
21 Mar 2024	(NEW) The Phytoplankton Microbiome: From the Microscale to Global Biogeochemistry		St. John's Island National Marine Laboratory	Singapore

### Other International Relations

A Memorandum of Understanding (MoU) was signed between SSHSPH and Asia-Europe Foundation (ASEF) to formalise the partnership between the two entities.

The Saw Swee Hock School of Public Health hosted the ASEAN Priority Setting Exercise from 13 to 14 June 2024. As part of this exercise, the School convened a panel of public health experts in ASEAN to discuss the challenges faced in this region; and to explore how the partnership between academia, industry and governments can enhance regional public health cooperation and address major health challenges in ASEAN countries through strategic collaboration between NUS and respective governments. The meeting report will be released in the future.

On 14 to 15 June 2024, the Southeast Asia Regional Collaborative for Health (SEARCH) organised a series of meetings and gathered regional SEARCH collaborators alongside policymakers and health system leaders from across ASEAN, China and India. The meetings intended to allow networking, collaboration and mutual learning on the topics of strategic health purchasing and primary care in aforementioned regions. Topics discussed were related to research framework and output planning (policy briefs, peer-reviewed articles), formalising the network and establishing an expert database,

overview of HTA (existing challenges and alternative pathway with high-cost medicines and role in health financing functions) and health financing at various levels.

## Visits

---

### Incoming Visits to the School

- 11 Jun 2024: Students from University College London (UCL)'s Global Business School for Health visited the School to learn about Singapore's health system and Translational Research.
- 9 Apr 2024: Visit by occupational health nurses from the Department of Public Health Nursing, Faculty of Public Health, Mahidol University.
- 18-19 Mar 2024: The Health Intervention and Technology Assessment Program (HITAP) visited the School for a joint retreat to examine capacity building activities by both institutions, identify opportunities for synergies and plan for collaborations (including resource mobilisation)
- 29 Feb 2024: US Defense Threat Reduction Agency's (DTRA) Biological Threat Reduction Program (BTRP) visited the School to discuss collaboration in Field Epidemiologist Training Programs (FETPs).
- 19 Feb 2024: GHIT Fund (Dr Osamu Kunii) and Remedy & Company (Mr Masakuni Ukita, Ms Tomoko Eguchi, Mr Beh Teik Jun, Dr Motoko Arakaki) visited the School.
- 7 Feb 2024: Dr Anders Nordström visited the School to present "Advancing Global Health for More Equitable Health Outcomes and Health Security for All" for the Public Health Thought Leadership Dialogue: Advancing Global Health for More Equitable Health Outcomes and Health Security.
- 19 Jan 2024: The Australian National University visited the School for health security talks.
- 2 Jan 2024: Hosted visitors from National Institute of Infectious Diseases, Japan.

### Outgoing Visits by the School

- 20 Jun 2024: School visit to Wellcome Trust offices (Prof Teo Yik Ying, Prof David Paterson and Prof Hsu Li Yang) to meet Dr John-Arne Rottingen, Dr Jonathon Underwood, Dr Sabrina Lamour-Julien, Dr Alan Dangour and Ms Clare Battle to discuss ADVANCE ID and the challenges faced, climate and health, as well as priorities setting in Asia.
- 20 Jun 2024: Prof David Paterson delivered a presentation at LSHTM on Antimicrobial Resistance (AMR), followed by discussion with Prof Gwen Knight and Dr Megan Carey on possible future collaboration projects on AMR.
- 18 Jun 2024: Prof David Paterson and Prof Teo Yik Ying visited the Novo Nordisk Foundation.
- 11 Apr 2024: School Visit to Cambodia's Ministry of Health, to strengthen strategic partnerships between the Cambodia MOH and NUS in areas such as health training, capacity building, research, and public health initiatives.
- 24 Jan 2024: Prof Teo Yik Ying together with a delegation of faculty members from the School visited Mahidol University in Thailand, Faculty of Public Health.

### International Honorary Affiliates

The School has established an honorary affiliate scheme for international experts who are based overseas, similar to the honorary adjunct faculty scheme for Singapore-based academics and experts.

The current appointments are as follows:

Name	Country	Dates of Affiliation (Start)	Dates of Affiliation (End)	Areas	Engagements
Gillian Leng	UK	14 Feb 2022	31 Dec 2025	Healthcare Services and Management, Health Systems and Policies, Health Economics, Epidemiology	2023: - Provided guidance on the development of the Master of Science in Health Economics and Outcomes Research (MScHEOR) programme - Was a speaker for HIPER's symposium 2023
Kenneth Hartigan-Go	Philippines	1 Jan 2022	31 Dec 2025	Health Policy; Health Systems: governance, regulations, and care	2024: Participated at the Roundtable on Leadership and Communication in Major Epidemics, as part of the Southeast Asia Health Security Roundtable Series, 24 to 25 May 2023 and 2022: Provided monthly general and regular advice on their respective countries and policy changes 2022: Speaker on ALPHA Fellowship Programme in October
Mark Jit	UK	1 Jan 2022	31 Dec 2025	Infectious Diseases, Epidemiology, Modelling, Global Health, Health Economics	2023 and 2022: - Mentor for work in global human papillomavirus - Provided advice for Laos office and conducted HTA training for the Lao MoH and Lao NITAG together with NUS, HITAP, and University of Melbourne in Nov 2023 - Conducted joint review on modelling for public health policy - Facilitated discussions during the first MIDSEA workshop in May 2023 - Joint modelling and vaccinology courses (between NUS, HITAP, LSHTM) in Southeast Asia - Part of Lancet Commission with NUS - Part of the Product Development for Vaccine Advisory Committee with NUS faculty (A/Prof Hannah Clapham) - Facilitated collaborations between SSHSPH and LSHTM - Involved in multiple joint publications with NUS Faculty

					<ul style="list-style-type: none"> <li>- To facilitate discussion at the HTAAsiaLink 2023 2022:</li> <li>- Collaborated on work in pneumococcal conjugate vaccination</li> <li>- Collaborated on health technology assessment policymaker engagement with ministries of health in the region (e.g. The Philippines, Bhutan) during HTAAsiaLink2022</li> <li>- Hosted Singapore Ministry of Health CDD (Prof Vernon Lee and Dr Marc Ho) at LSHTM in Oct</li> </ul>
Timothy William	Malaysia	1 Jan 2022	31 Dec 2025	Infectious Diseases	<p>2023: Provided advice to Vice Dean (Global Health) on infectious diseases related to Malaysia</p> <p>2022: Gave a Malaria lecture in NUS Module SPH5201 (Control of Communicable Diseases) in Mar</p>
Eduardo Banzon	Philippines	1 Nov 2021	31 Dec 2025	Health Systems Financing	<p>2023:</p> <ul style="list-style-type: none"> <li>- Point of contact for Asian Development Bank</li> <li>- Participant in a Leadership Forum on Progressing Precision Health for Asia, Wednesday, 12 July 2023 (pre-conference event)</li> <li>- Speaker for Precision Public Health Asia 2023 Conference (PPHA2023). Date: Thursday, 13 July 2023. Topic: Financing Precision Population Health Management (15 minutes presentation)</li> <li>- Moderator for Precision Public Health Asia 2023 Conference (PPHA2023). Date: Friday, 14 July 2023. Topic: Digital leapfrog to enable access to underserved populations and improve health equity (moderation)</li> </ul> <p>2022:</p> <ul style="list-style-type: none"> <li>- Advised and shared expertise on strategic purchasing project led by LIGHT team</li> <li>- Organising committee of the Precision Public Health Asia Conference 2023</li> <li>- Provided monthly general and regular advice on their respective countries and policy changes</li> </ul>

Jaime Caro	UK	1 Aug 2021	31 Dec 2025	Modelling, health economics, comparative effectiveness, epidemiology, HTA, and outcomes research	<p>2024: Potentially a lecturer to conduct a short course on Simulation for HTA in 2025</p> <p>2023: Involved as SPH5423 lecturer</p> <p>2022:</p> <ul style="list-style-type: none"> <li>- Provided consultations to 2 PhD students on their projects</li> <li>- Provided technical advice to HIPER's project named PRUDENCE</li> <li>- 26 May to 2 Jun: Gave lectures in NUS Module SPH5423 (Simulation for Health Technology Assessment)</li> </ul>
Jorgen Moller	UK/Sweden	1 Aug 2021	31 Dec 2025	Simulation in pharmacoconomics and outcomes research, HTA	<p>2024: Potentially a lecturer to conduct a short course on Simulation for HTA in 2025</p> <p>2023:</p> <ul style="list-style-type: none"> <li>- Worked with HIPER on a pre-conference workshop held in September 2023</li> <li>- Involved as SPH5423 lecturer</li> </ul> <p>2022:</p> <ul style="list-style-type: none"> <li>- Provided technical advice to HIPER's project named PRUDENCE</li> <li>- 26 May to 2 Jun: Gave lectures in NUS Module SPH5423 (Simulation for Health Technology Assessment)</li> <li>- Conducted 3 internal training sessions on Discretely Integrated Condition Event (DICE) for HIPER's staff; (a) Time To Event modelling- this was implemented in DICE, (b) Chronic Disease modelling in DICE using RA as an example, (c) A comparison of a Partition Survival model and a Time To Event model, both also implemented in same workbook</li> </ul>
Michael Herdman	UK	7 Jun 2021	31 Dec 2025	Health Systems and Policies, Qualitative research, Epidemiology, Health Economics	<p>2024: In collaboration with A/Prof Luo Nan on two systematic review projects</p> <p>2023:</p> <ul style="list-style-type: none"> <li>- Co-I with A/Prof Luo Nan on Lao PDR seed fund project</li> <li>- Co-I with A/Prof Luo Nan on USIRP seed fund project</li> </ul> <p>2022:</p> <ul style="list-style-type: none"> <li>- Co-I with A/Prof Luo Nan on 3 projects</li> </ul>

					- Co-PhD thesis advisor to 1 PhD student (Oct 2022 to Jul 2024)
Michael Friedman	USA	1 Jul 2023	30 Jun 2025	Health Security in Regional Countries, Global Health and Health Security	2024: Part of the international multidisciplinary team of experts in the Asia Centre for Health Security 2023: Speaker for Workshop on Responding to Pandemics and Future Preparedness, topic: Using Data for Health Crisis Decision Making: Lessons from Ebola in Sierra Leone and COVID in Bangladesh, on 14 July 2023
