

# Master of Public Health

*Turning discovery into healthier  
communities through education,  
research and partnership*

# Are you **looking to**

- ☑ Take on a role where you can directly influence **public health programmes and policies**?
- ☑ **Translate research** from the health or social sector into strategies that make a real difference?
- ☑ Drive the changes needed to improve **population health** and well-being on a broader scale?

Designed for **public health professionals like you**, the Master of Public Health (MPH) programme provides a comprehensive understanding of how different facets of public health fit together. It is well-suited for graduates from diverse backgrounds, particularly those with professional experience in health or social sectors.

# The NUS Public Health Advantage

## Top Ranked University in Asia

National University of Singapore is ranked #1 in Asia in the QS World University Rankings 2024.

## Global Exposure

Collaborate internationally, engage in exchanges, and learn from experts to address complex public health challenges.

## Affordable Financing

Highly subsidised tuition fees of up to 70% for both local and international students. Scholarships and financial aid covering tuition fees and stipends are also available.

## Interdisciplinary Curriculum

Comprehensive curriculum rooted in evidence-based approaches with collaborative learning methodologies.

## World-Class Faculty & Research

Benefit from the extensive knowledge and experience of our global faculty members, with an emphasis on translating evidence-based research into practice.

## International Alumni Community

Network with our family of alumni from over 30 countries who have made significant contributions to public health globally.

## Career Advancement

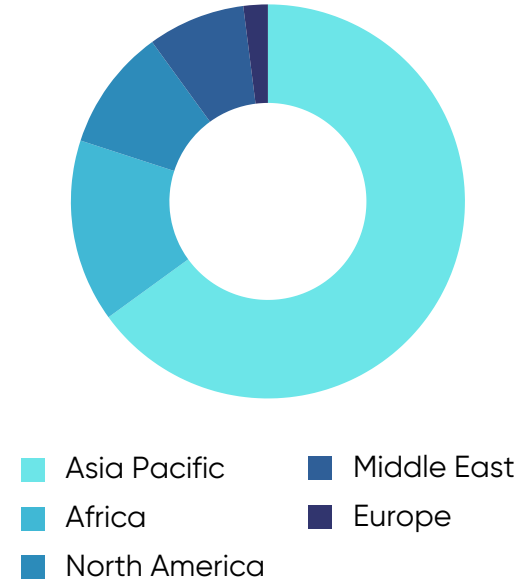

Graduates have gone on to assume leadership positions in a vast array of organisations including government agencies, NGOs, hospitals, and pharmaceuticals.

## Disciplinary Competencies

## A Global Ensemble of Talent

## Where Our Graduates Work

“It is a great joy to learn, as an alumnus, at the National University of Singapore, one of the finest universities in the world, and an outstanding leader in education, research and innovation. The knowledge I learned in NUS has helped my career in public health in Hong Kong and later in the World Health Organization.”

### Dr Margaret Chan, Class of 1985

*Emeritus Director-General of the World Health Organization (WHO),  
 Founding Dean of Vanke School of Public Health at Tsinghua University*

# Programme **Tuition** Fees for AY2025/2026

All **local and international** students are eligible for the tuition fee subsidies.

Full Time / Part Time	Subsidised Fees*	Non-Subsidised Fees
Singapore Citizens	SGD 23,550	SGD 94,050
Singapore Permanent Residents	SGD 23,600	SGD 95,200
International Students	SGD 27,950	SGD 95,200

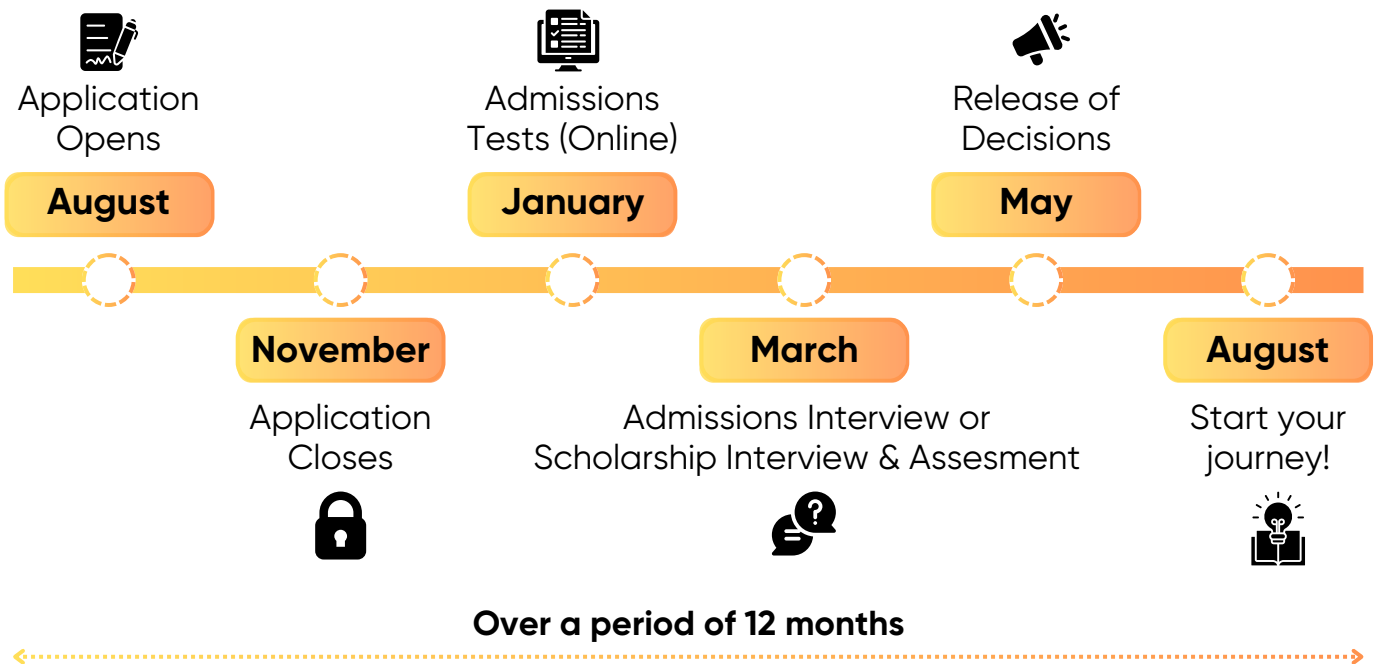

*\*Students who have previously enjoyed government subsidy or sponsorship by a Singapore government agency in a graduate programme will not be eligible for Ministry of Education (MOE) subsidy and will be liable to pay non-subsidised fees.*

- For Full-Time students, the total tuition fees are payable over 1 year in 2 parts.
- For Part-time students, the total tuition fees are payable over 2 years in 4 parts, with fee adjustments applicable in the second year.

**Note:**

As of August 2024, all successful applicants will be required to pay SGD 5,000 upon accepting the offer. This amount will be offset against their programme tuition fees.

## Hear From Our Scholar

Studying MPH at NUS has opened doors of knowledge and opportunities for me. My once-in-a-lifetime experience at the Saw Swee Hock School of Public Health has guided my approach to solve complex public health issues and challenges at work.

**Erwyn Ooi Chin Wei, Class of 2021**

SSHSPH Master of Public Health Fellowship  
Principal Assistant Director, Ministry of Health, Malaysia

## About Saw Swee Hock School of Public Health, National University of Singapore (NUS)

The NUS Saw Swee Hock School of Public Health is Singapore's first and only national school for public health. Built upon more than seven decades of experience in research, education, and practice, the School is a leader in advancing public health knowledge, developing public health leaders and transforming health practices in Asia.

Through the Global Health programme, the School also has strong alliances and partnerships with governments, public health agencies, and academic institutions from around the world, including the London School of Hygiene & Tropical Medicine and Tsinghua University Vanke School of Public Health, to contribute to capacity building to address global health challenges.
